

PROFESSIONAL ELECTRICAL BUILDING SERVICES

# Quality Policy

## Quality Policy

We are committed to providing our customers with high-quality products and services that meet or exceed their expectations. We believe that quality is an essential aspect of our business and that it is vital for our success.

. The scope of our company is:

- **Electrical and Mechanical Building and Modular Services Contractors**

**Services and products included lighting, small power, fit out, external landscape areas etc. The company covers industries including Commercial, Industrial, Healthcare, Education and Residential. The company also covers design within Apex Modular Services**

The company aims to achieve the above by implementing a management system that complies with the international standard of good practice BS EN ISO 9001:2015. This includes a commitment to satisfy legal and applicable requirement and also includes a commitment to continual improvement of the management system.

All personnel within the company are responsible for the quality of their work. The company provides training and has established systems to assist all personnel to achieve the standards required.

This policy will be communicated and applied across the organisation and will also be made available to relevant interested parties as appropriate.

In line with the framework outlined in this policy, objectives have been established and are regularly reviewed to determine progress and actions required. To assist us in achieving our aims and standards set, we require and expect from our Client's and suppliers "Total Commitment" and assistance when required. If at any time the former are not reflected, we have, through our system, developed processes to rectify the situation, not only to meet our own needs, but also those of our Clients.

The management of **CD Engineering Services and Apex Modular Systems** will ensure that adequate resources and infrastructure are afforded, together with administration of a structured aim and disciplined approach, to implement and maintain the Policy and to achieve the stated quality aims, objectives and required competency.

The Directors have the authority and the responsibility to establish and maintain quality. They have the freedom to recognise any quality problems relating to service, process and systems and to initiate, recommend or provide solutions to these problems.
